

ENERGY CHAMPIONS

Carbon emissions from energy dominate the total greenhouse emissions of most organisations.

The Public Sector estate has a significant carbon footprint and therefore has an enormous opportunity to contribute to the reduction in energy consumption, increased energy efficiency, mitigating environmental effects and promoting a better workplace environment for employees.

The Public Sector Energy Champions Awards are now in its second year.

To view last years winners, go to www.energymanagemagazine.co.uk/energy-champions

AWARD CATEGORIES:

- Education - Colleges
- Education - Schools
- Education - Universities
- Emergency Services
